*(*King & Queen TempurPedic foundations also available in 5" thick)*

We can get other TempurPedic mattresses. Our price list shows only what we display in our showrooms.

Not all mattresses are equally suited for all bed styles; they can range from 7" to 13" thick.

Please lie down on the mattresses before you make your choice; mattresses cannot be returned or exchanged.

(With the exception of the TempurPedic.) Choose one that feels good for you.

Your sales person can give you more information about any of the mattresses.

Our Craftsmen must know the thickness of mattress to be used with a *Sleigh Bed* or sloped headboard.
