Our normal delivery fee includes complete installation.

Artwork and mirrors for inside the cabinet are sold separately

Side-Bed Panel Beds

The Side Bed is a version of the Panel Bed in which the bed pivots along the length of the bed, not the head. The cabinet is shorter than the normal Panel Bed, and therefore has a 1" thick solid hardwood finished top; lights are NOT included, nor are they an option. There is no "headboard" but a "side-rail" that is 3" deep. The tops overhang 1/2" on the front and two sides and are flush on the back. Hand lunge handles and mattress are included.
