

Sleigh Beds

The *Sleigh Bed* has a 40" tall raised panel headboard and either a 30" tall raised panel footboard (top drawing) or a low footboard (bottom drawing.) Prices below are for the tall footboard (deduct \$415 for the short footboard.)

This bed is well suited for either a thick mattress (with no box spring) or a box spring and mattress combination. We will adjust the legs and mattress supports to place the top of the mattress at about 24" from the floor (as drawn above) so we will need to know the thickness of the bedding that you will be using.

King and queen size beds have a central under-bed support.
