

## The Modular Collection

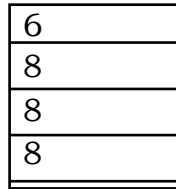

Modular style construction consists of solid, flat cuts of hardwood finished to 7/8" thickness for the sides and tops, joined in a lock-mitred and wooden-pegged corner. This style includes brass handles #661-4. Because two or more pieces can be placed next to each other (no over-hanging top) they are useful for wall systems. The doors are flat, inset veneer doors. Standard depth for this style is 18", except for the Captain's Chest, which is 21" deep.

### Chests

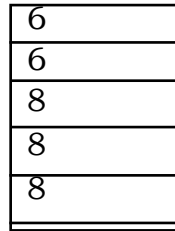

**3 dr. chest**  
33" w x 29" t

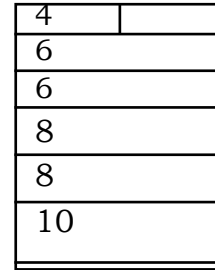

**4 dr. chest**  
33" w x 35 7/8" t

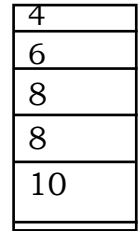

**5 dr. tall chest**
