

Woodley Futon Furniture

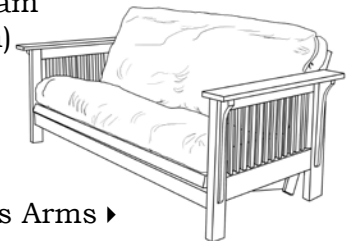

All futons are not created equal. The trend with regard to futons has been to get the price to the absolute lowest number. As a result, there are a lot of poorly made items being offered as futon "furniture." We are opposing this trend.

Our frames are built as real furniture: pegged mortise and tenon joints, real solid wood, and made by real craftsmen—locally. Compare ours to any others—you cannot buy a better frame.

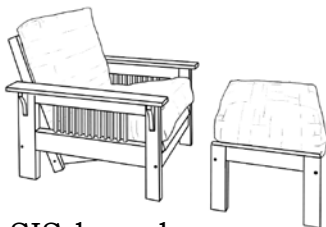

Our **White Lotus** futon mattresses are also a cut above the usual. Rather than just use plain cotton and foam, we use natural cotton with Ultracel foam (an earth friendly & high quality foam) all sandwiched between layers of wool, which acts as a natural fire retardant and dust-mite repellent, for a comfortable, dry and healthy sleep.
